

# Spotlight Award

In recognition of your contribution to AMD, we are pleased to present you with a Spotlight Award.

In recognition of: Siddharth Ahluwalia

## Award Message:

Dear Recipient Spotlight Award : MI350 BU Exit Criteria MSA Suite. First time ever, MSA was a DCGPU BU Exit criteria. The MI350 Diag team collaborated with cross functional teams and released a MSA package. This required innovative thinking and meticulous planning during pre-silicon that enabled Diags early delivery for BU exit criteria. In addition, it's good the GFX and SOC MSA Diag tests are the most stressful di/dt workloads to date based on PPA results. Let's continue the momentum with tuning the MSAs to be more stressful and lead all the way to the finish line for MI350 production. Nominated by Raymond CK Wong
